

S&OP Anaplan Accelerator

Leveraging years of experience in S&OP digital transformation and our Fit-to-Modern process benchmarking methodology, Peloton Consulting Group has developed a standard offering for S&OP to help jump-start your Anaplan journey.

Peloton offers multiple stages of the S&OP implementation process to fit customers' varying paces of adoption:

- Demand Planning: 12-16 Weeks
- Demand + Supply Planning: 16-20 Weeks
- Full S&OP: 20-25 Weeks

Benefits

- Best-in-class multi-level and multi-function demand planning
- Robust product lifecycle management functionality with multiple new product introduction methodologies
- BOM driven material level production capacity planning and scheduling
- Full scenario capability for each stage in S&OP process

Functionality

- Statistically forecasted baseline demand
- Marketing and opportunity and risk
- Consensus demand scenarios
- Product lifecycle management
- Supply and inventory
- Materials and production

Peloton Consulting Group is your strategic partner for unleashing the full potential of Anaplan's Connected Planning platform. Our exceptional delivery quality, professional expertise, industry insight, and continuous improvement programs empower you to transform your business and thrive in today's uncertain world.

Let's embark on this transformative journey together and unlock new possibilities for your organization's success.
