By combining rapid implementation and comprehensive training, our accelerators are designed to help our customers see value faster and improve financial operations for Oracle Cloud ERP users "

Matthew Conner, Chief Customer Officer at Peloton Consulting Group.

proudly announces the launch of two new accelerators — Financials & Indirect Procurement — for Oracle Cloud ERP, designed to empower businesses with unparalleled efficiency, agility, and strategic decision-making capabilities.

Peloton's accelerators expedite the setup and configuration of Oracle Fusion Cloud Financials modules, reducing implementation timelines and enabling customers to realize value sooner. Leveraging machine learning and AI-driven analytics, the accelerators diminish exceptions and fortify risk management capabilities, ensuring seamless operations and minimizing business and audit risks.

With preconfigured templates and best practices, Peloton's accelerators streamline the deployment process, minimizing the need for extensive customization and accelerating time to value. Automated workflows for critical financial processes such as payables, receivables, and expenses eliminate manual intervention, optimizing resource utilization and improving productivity.

"By combining rapid implementation and comprehensive training, our accelerators are designed to help our customers see value faster and improve financial operations for Oracle Cloud ERP users," says Matthew Conner, Chief Customer Officer at Peloton Consulting Group. "We're thrilled to offer businesses a streamlined approach to unlocking the full potential of Oracle Fusion Cloud Financials, enhancing operational efficiency, and driving strategic decision-making."

Peloton's Financials & Indirect Procurement Accelerators for Oracle Cloud ERP provide customers with real-time insights into financial performance, facilitating informed decision-making and strategic planning. Customers can expect shortened time to value, cost savings, improved operational efficiency, and enhanced decision-making capabilities from Peloton's accelerators.
