Leading Engineering & Construction Firm Transforms Business Operations with Oracle Cloud EPM

FOR ORACLE INTERNAL USE ONLY

Oracle Cloud EPM Go Live

Industry: Manufacturing

American Cast Iron Pipe Company (ACIPCO) | Birmingham, AL | www.american-usa.com

Products Purchased: Oracle Cloud EPM - Planning

Systems to be Replaced: Longview

American Cast Iron Pipe Company (ACIPCO) is an influential capital-goods manufacturer with eight manufacturing plants in six states and inventory locations across the country. ACIPCO companies manufacture ductile iron pipe, spiral-welded steel pipe, valves and hydrants for the waterworks industry and steel pipe for the energy industry.

Cloud EPM Business Drivers

Following ACIPCO's successful Oracle Cloud - TRCS implementation, Peloton Consulting Group had been working with the team to migrate their On-Premise Hyperion Planning solution to Oracle Cloud EPM. ACIPCO had been burdened with cumbersome reporting due to multiple data sources from disparate systems, which resulted in limited value-added analysis. Peloton migrated two on-premise Hyperion Essbase applications to Oracle Cloud EPM, which has provided process and technical improvements to simplify data movement, calculations, and reporting.

The Oracle Cloud EPM migration has achieved the following benefits:

Enhanced Planning
Transformed home-built solution to report against 250+ active & 2k+ closed historical projects

Increased Bandwidth
Planners can now focus on analysis instead of data cleanup

Improved decision-making
Information is now consolidated into one location

Upcoming EPM Event

Peloton Consulting Group will be hosting a NorCal Oracle Cloud EPM Summit on Wednesday, November 15th at the Santa Clara Oracle office. We will be joined by one of our clients for an interactive panel discussion highlighting the benefits they have achieved since migrating to Cloud EPM. The Summit will conclude with a networking reception at TopGolf.
