Currently, BDO serves more than 400 publicly traded domestic and international clients.

Oracle Recruiting Cloud - Solution & Key Accomplishments

Peloton Consulting Group is supporting BDO on an implementation journey that provides business, technology and industry specific best practices as well as a fully guided learning platform that will train thousands of employees across their US offices as part of a complete Cloud migration that includes Oracle ERP, HCM and EPM.

Running on a fragmented and outdated platform, BDO made the decision to transition from their legacy provider to a unified Oracle Cloud platform. Recently, they went live with Recruiting Cloud to drastically enhance their user experience and streamline business processes.

Key accomplishments of the Recruiting Go Live included:

"Peloton Consulting Group's partnership with BDO was instrumental in helping determine the best options to move forward with as part of the HCM Optimization. Peloton's HCM team took the time to listen to what we were trying to accomplish, helped educate us around new features, and truly invested in the BDO - Peloton relationship." - BDO HCM Senior Director
