Integrations: Salesforce, ERP Cloud, Workday

Merative is a digital tool that helps clients facilitate medical research, clinical research, and healthcare services, through the use of artificial intelligence, data, analytics, cloud computing, and other advanced information technology.

Oracle EPM Cloud - Key Accomplishments

As part of Merative being a standard-alone company operating independently, they needed to set up all processes, systems and procedures under one source of truth to drive Financial Planning organization. Working closely with Merative's Finance and Accounting teams, Peloton successfully implemented and optimized their EPM Cloud solution providing:
