

C&S Wholesale's Cloud Journey: EPM Cloud Live following Analytics Cloud Success

FOR ORACLE INTERNAL USE ONLY

Oracle EPM Cloud Go-Live

C&S Wholesale Grocers | Keene, NH | www.cswg.com

Industry: Wholesale Distribution

Oracle Products & Services Live: EPM Cloud - Account Reconciliation

Systems Replaced: Blackline

Integrations: Oracle Essbase & E-Business Suite

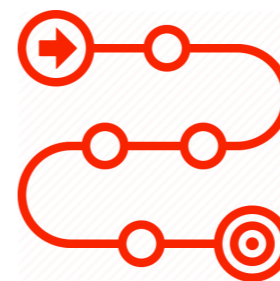

C&S Wholesale Grocers is the largest privately-held wholesale grocery supply company in the U.S. and the industry leader in supply chain innovation. As a supplier to independent grocery stores, C&S now services customers of all sizes, supplying more than 7,700 independent supermarkets, chain stores, military bases and institutions with over 140,000 different products.

Project Overview

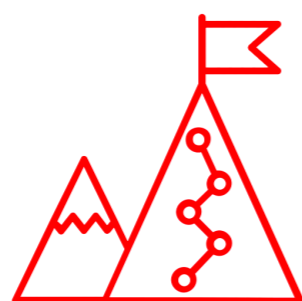

Peloton Consulting Group has been a trusted partner of C&S Wholesale since 2014, developing a strong relationship streamlining their financial management, analytics and planning processes. C&S' finance team needed to improve the company's reconciliations process, and chose to move to an Oracle EPM Cloud solution that could easily integrate with their current systems.

By implementing EPM Cloud - Account Reconciliation, C&S and Peloton focused on the following critical areas:

- Quick and easy access to core data
- Tools and processes to be more efficient
- Ensure solution is scalable to support expanding needs
- Develop standardized processes
- Automate data loads and repetitive reconciliation tasks

Business Challenges

C&S' financial leadership team recognized that they were no longer experiencing the same benefits from Blackline they could from Oracle EPM Cloud. Upon research they found the cost benefit and short implementation time needed to successfully lift and shift to EPM Cloud - Account Reconciliation, C&S could quickly and easily improve:

- Time required to reconcile cash transactions
- Visibility into the reconciliation process
- Lack of integration between existing applications

Key Accomplishments

Through the implementation of Oracle EPM Cloud - Account Reconciliation process, Peloton delivered a robust solution that successfully replaced Blackline and provided the following benefits:

- Controlled environment and central repository
- Standardized and integrated reconciliation process with minimal disruption
- Efficient Auto-reconciliation functionality
- Defined workflow in alignment with the close cycle
- Enhanced status reporting

Why Peloton Consulting Group

ORACLE

Service Partner

Expertise in
Oracle EPM Enterprise Cloud
in North America

Peloton Consulting Group has partnered with C&S Wholesale Grocers for the past 6 years and has been instrumental in building out their FP&A and Finance transformation roadmap. Previous phases of implementation projects included Oracle Analytics Cloud, EPM Cloud - Planning and Essbase Analytics.
