Industry: Insurance

Oracle Products & Services Live: Oracle ERP Cloud - Financials & Procurement  
Systems Replaced: PeopleSoft

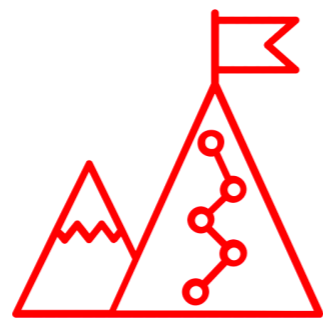

PEMCO Insurance is a personal-lines mutual insurance company based in Seattle, WA that provides a variety of insurance services such as auto, umbrella, boat, condo, home, and renters insurance.

#### Project Overview

PEMCO previously implemented Oracle EPM, HCM and Analytics Cloud with a different implementation partner. Following their migration from Peoplesoft to Oracle Cloud, PEMCO was pleased with the benefits and efficiencies they gained, however, they decided to move on from their previous partner to continue their journey to the Cloud with Peloton Consulting Group.

“I have been a part of 3 ERP platform changes and this is by far the fastest I have ever seen it done. Thanks for the effort Peloton ...” CFO PEMCO Insurance

#### Business Challenges

Though the previous projects were successful, PEMCO chose to move forward with Peloton Consulting Group to complete their ERP Cloud project to:

- Improve overall quality of service
- Increase user adoption
- Proceed with a Virtual & Innovative methodology

Peloton provided the trusted experience and expertise and was ultimately selected as the best ERP Cloud partner for PEMCO.

#### Key Accomplishments

Working closely with PEMCO's finance team in a 100% virtual environment, Peloton was able to successfully implement ERP Cloud. The following benefits were achieved over the course of this implementation:

- Eliminated on-premise back office applications
- Improved and standardized procurement, payables and expense processing
- Provided more robust native ERP reporting and tight integration with Oracle Analytics

#### Why Peloton Consulting Group

**ORACLE** | Service Partner  
*Expertise in*  
**Oracle ERP and EPM Cloud**  
in North America

PEMCO chose Peloton Consulting Group as their implementation partner because of the quality of our customer references and our Virtual Breakaway implementation methodology which is focused on end-user adoption while working remotely. They also appreciated the fact that Peloton has personal experience running ERP Cloud for our own business, providing a customer to customer connection.
