Pacific Dental Services (PDS) is one of the country's leading dental support organizations. The PDS business model enables owner dentists to lead their own clinical practice and make their own treatment decisions, while PDS team members provide the support to manage everything on the business end. The result is top-notch care that leads to healthier, happier patients.

Oracle FAW Business Drivers

Pacific Dental Services has been experiencing rapid growth with an increased amount of dental office openings across the country. They began to experience difficulties in creating and modifying OTBI & BI Publisher reports, which frequently lead to extracting data from Fusion ERP and completing preparation offline. They had also been experiencing data extraction limitations and their reporting packages were often too complex to render in OTBI, which caused issues during daily activities and during the close process.

Pacific Dental Services partnered with Peloton to deliver a platform that would develop custom reports for data across multiple subject areas, configured out of the box applications and allowed full access to Fusion data within ADW to enhance broader visibility.

Peloton implemented Oracle Fusion Analytics Warehouse, providing the following benefits:

Stay In The Know With Peloton Consulting Group

Peloton Consulting Group will be hosting a Cloud Adventure hands-on experience with Oracle Fusion Cloud ERP on Wednesday, April 10th in Boston. Through a series of guided classroom workshops, customers will get a first-hand feel for Oracle's innovative interface, functional flows, reporting and analytics capabilities.

Following the Cloud Adventure, attendees will join us for a Red Sox game in our private VIP suite at Fenway Park.
