

**Trinity Industries Upgrades Business Processes with Oracle Cloud ERP**

FOR ORACLE INTERNAL USE ONLY

**Oracle Cloud ERP Go Live**

**TRINITY INDUSTRIES, INC.**

**Industry: Manufacturing**

Trinity Industries | Dallas, TX | [www.trin.net](http://www.trin.net)

**Products Purchased:** Oracle ERP Cloud - Financials, Projects & Procurement

**Systems to be Replaced:** Oracle E-Business Suite & Microsoft Excel

**Trinity Industries** began providing industrial products and services to customers more than 85 years ago. They started as a small butane-tank manufacturer and evolved over time into a premier provider of railcar products and services in North America with a leading railcar lease fleet and manufacturing.

**Oracle Cloud ERP Business Drivers**

Trinity Industries' legacy solutions did not support the functionality required to achieve the business growth and operational objectives. Their legacy solution included 70+ supporting apps, 7 ERP systems, and 20+ manual steps to create invoices. Oracle Cloud ERP's native functionality enabled manual functions to be automated across all work streams (AP, AR, GL, FA, Projects, etc.) and Peloton was able to successfully convert 800,000+ fixed assets and 2 years of Accounts Receivable transactional history. The scope included operations in the U.S and Mexico.

By implementing Oracle Cloud ERP, the following benefits have been achieved at Trinity Industries:

Achieved \$1M in savings annually by eliminating infrastructure application rationalization

Extended technology refresh requirements from every 2-3 years to 10+ years

Reduced manual touchpoints significantly with Oracle's AI-enabled AP invoice functionality

**Stay in the Know with Peloton Consulting Group**

Peloton Consulting Group and Oracle will be hosting a live webinar on Tuesday, May 14th on "HCM and EPM Better Together: Workforce Planning Journey." Attendees will learn how to utilize Oracle Cloud HCM and EPM to connect every part of their business. Guests will also have the opportunity to discover how their organization can leverage Journeys to drive success, deliver personalized guidance, simplify and streamline the workforce planning process.
