

Whether you have existing Oracle applications that need a health check, or you are starting your cloud journey, Peloton provides leading practices and points of view, specifically tailored to Retailers.

What is Peloton Cloud Assessment?

Our holistic assessment aims to align Retailers to a best practice future state. Exploratory discussions around the existing environment will highlight issues and improvement opportunities, while establishing a strategic change agenda and path forward to drive business transformation.

Personalized for each Retail customer, our assessments are designed to evaluate both immediate and long-term goals to support the business's transformation journey.

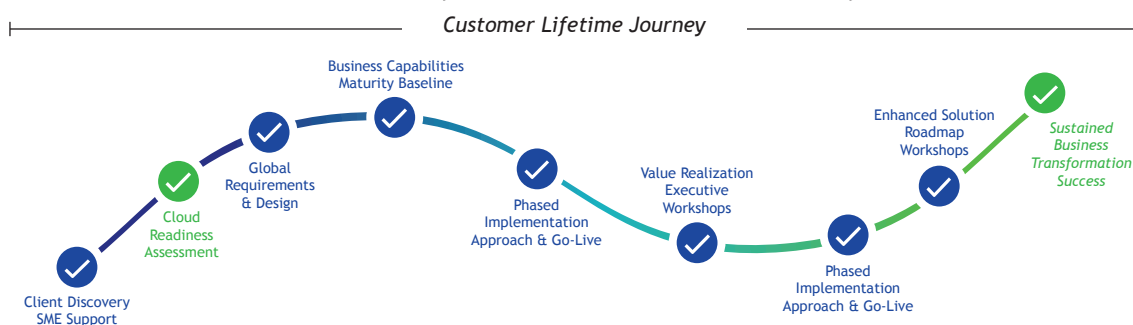

Assessment Elements

- Explore and document existing issues & improvement areas based on industry leading practices for Finance, Accounting, FP&A, Operations, and Human Resources.
- Analyze critical business needs and capabilities.
- Establish a high-level, future-state vision.
- Identify, rationalize, and prioritize key initiatives.
- Develop a transformation road map.

Business Advantages

- Gain an understanding of Retail best practices.
- Recognize and document current bottlenecks in business processes.
- Leverage improvement opportunities that drive solution efficiencies, cost savings, and significantly improve business capabilities.
- Identify near-term, mid-term, long-term priorities aligned to an intentional transformation road map.
- Develop a compelling business case and consensus for dramatic improvement and transformational change.
